## Design

As a London of College graduate my career took off as a Junior Designer, but an interest in styling led me into the realm of TV/ commercials. At this point I discovered my affinity for character dressing, expanding my work to include costume design for indie features, tv and shorts.

## Experience

From comedy to period dramas my experience is thorough and multifaceted. I am skilled in sourcing and alterations and have a breadth of fabric composition / construction knowledge. This sets me apart to deliver exceptional craftsmanship in every project I undertake.
